## 4.6. Air Districts Updates

### 4.6.1. Ventura County APCD Update

Holly Galbreath, Ventura County APCD, reported no updates.

### 4.6.2. South Coast AQMD Update

Sang-Mi Lee, South Coast AQMD, reported the following:

- U.S. EPA proposed a determination that the Coachella Valley attained the revoked 1997 8-hour federal ozone standard.
- The public comment period for the proposed determination was underway.
- South Coast AQMD would request formal redesignation of the Coachella Valley to attainment for the said standard once finalized.
- It should be noted that the Coachella Valley would remain in nonattainment for other federal ozone standards, and transportation conformity requirements would continue to apply in the area.

### 4.6.3. Mojave Desert AQMD Update

Bertrand Gaschot, Mojave Desert AQMD, reported no update.

In response to a question, Bertrand Gaschot stated that Mojave Desert AQMD Governing Board would consider adoption of the proposed amendment to correct their stationary new source rule at its March 2026 meeting before submitting to U.S. EPA for approval through CARB. This action was in response to EPA's proposed conditional approval which paused the highway sanction clock in the MDAQMD's jurisdiction in July 2025.
