Dear SCAG Regional Council Members

I am writing as a concerned resident of West Hollywood to respectfully urge SCAG to remove the proposed K Line Northern Extension (KNE) subway stations in West Hollywood from the July 1 SB 79 qualifying transit stop map.

The legal basis for this request is very clear. HCD's March 20, 2026 clarifying memo defines a qualifying "transit-oriented development stop" as a stop on a route for which a Locally Preferred Alternative (LPA) has been adopted. That standard has not been fully met in West Hollywood. The Los Angeles County Metropolitan Transportation Authority approved the San Vicente-Fairfax Locally Preferred Alternative only with a major condition: the City of West Hollywood, working with Los Angeles County, must establish an Enhanced Infrastructure Financing District (EIFD) capable of providing local funding equal to at least 25% of the project's estimated capital cost—approximately \$2.25 billion. That condition has not been met.

Because this funding contingency remains unresolved, the project has not received final and unconditional approval. Until the Metro Board's funding requirement is satisfied, the proposed K Line stations should not be treated as qualifying transit stops under SB 79. This is not a minor technical issue—it is a major unresolved financial obstacle.

West Hollywood is a small city. Raising \$2.25 billion in local funding presents an extraordinary challenge. Even Metro Board member Ara J. Najarian publicly questioned whether West Hollywood could realistically help raise this amount. Including these proposed stations in the SB 79 map now would prematurely trigger major transit-oriented development provisions despite significant uncertainty about whether this subway alignment will ever be funded or built. This creates unnecessary legal and procedural risk.

These proposed stations are not expected to open for decades—if they are built at all. Delaying their inclusion until the project reaches greater certainty would not delay housing production. In contrast, immediate inclusion imposes major zoning consequences today and effectively undermines the Transit Oriented Development Alternative Plan (TODAP) process that SB 79 expressly preserves for communities.

For these reasons, I respectfully urge SCAG to remove the proposed K Line Northern Extension stations in West Hollywood from the July 1 SB 79 qualifying transit stop map and defer any inclusion until the project reaches a sufficient level of certainty and affected communities have had a meaningful opportunity to utilize the TODAP planning process that SB 79 expressly preserves.

Dear SCAG Leadership,

I am writing to respectfully request that SCAG decline to recognize West Hollywood Council Member Chelsea Byers as the City's representative on matters relating to Senate Bill 79 and other closely related housing policy issues until the California Fair Political Practices Commission has completed its review of a conflict-of-interest referral submitted by the City of West Hollywood.

The City itself determined that the circumstances warranted requesting formal guidance from the FPPC concerning Council Member Byers' participation in housing-related matters due to her paid employment with a housing advocacy organization whose mission directly intersects with many of the land use and housing policies before both the City and SCAG. That referral was not made by a political opponent or outside advocacy group. It was initiated by the City because the questions raised are sufficiently serious to merit an independent determination.

No one should presume the outcome of the FPPC's review. However, it is equally inappropriate to proceed as though no legitimate questions exist. Until the FPPC determines whether Council Member Byers' outside employment creates a disqualifying conflict or otherwise limits her participation, prudence dictates that she not serve as West Hollywood's voice before SCAG on the very matters under review.

The integrity of regional planning depends not only on compliance with conflict-of-interest laws but also on maintaining public confidence that decisions are free from unresolved questions regarding divided loyalties. Waiting for the FPPC's guidance protects everyone involved, including Council Member Byers, the City of West Hollywood, and SCAG itself.

Because the City has already acknowledged that this issue warrants review by the FPPC, I respectfully request that SCAG refrain from permitting Council Member Byers to represent the City of West Hollywood on SB 79 and other housing policy matters until that review has been completed and a determination has been issued.

Thank you for your consideration.

Sincerely,

Alan Strasburg
West Hollywood Resident

July 2, 2026 Regional Council Meeting

Concern re SCAG Council/Committee Member Chelsea Byers

Dear Regional Council Members:

I am communicating my concern about Chelsea Byers, a member of the West Hollywood City Council and a member of the SCAG Regional Council amongst other roles. West Hollywood's City Council has referred Chelsea Byers to the California Political Practices Commission for potential conflict of interest due to her employment by Welcoming Neighbors Network, a lobbying group strongly supportive of SB79.

I request SCAG recuse Chelsea Byers from any and all SCAG activities involving or affected by SB79.

Respectfully,

Anita Goswami, Resident West Hollywood
